

# Interim Controller & Acquisition Integration Case Study

VIP

VIP SOLUTIONS CASE STUDY

## BACKGROUND

Our client acquired three tuck-in assets that required significant stabilization and improvement.

## OBJECTIVES

Assume interim Controller responsibilities for tuck-in acquisition.

Implement accounting and reporting standards in alignment with the acquirer's processes, policies, and objectives.

## SOLUTIONS

Assumed responsibilities of the Controller for 90-day period during transition cycle.

Implemented close process and enhanced accuracy through established and rigid close process, driven by a calendar of activities.
